CNC PANTOGRAPH
ATROPO

The ATROPO CNC Pantograph is a specialized machine designed for engraving, drilling, and relief work on marble, granite, and natural stone. Compact and precise, its design with 3 interpolated XYZ axes ensures detailed and efficient results.

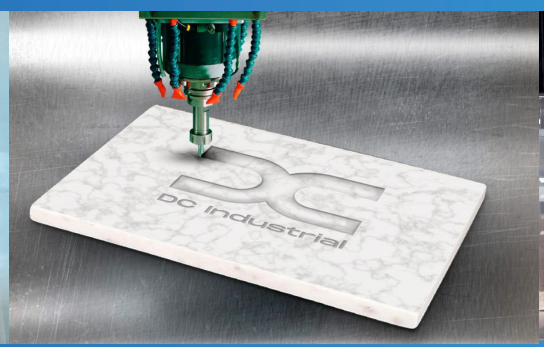

Ideal for producing funerary art, decorative pieces, and general construction applications, it offers the perfect combination of technology and performance for exceptional outcomes.

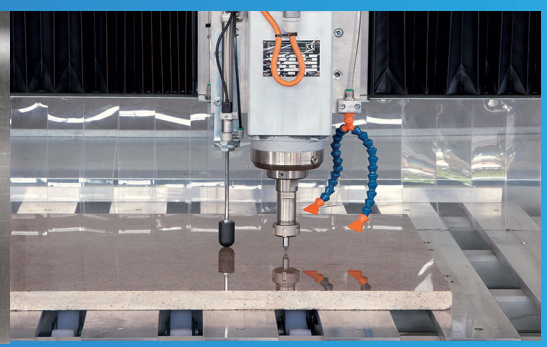

GENERAL FEATURES

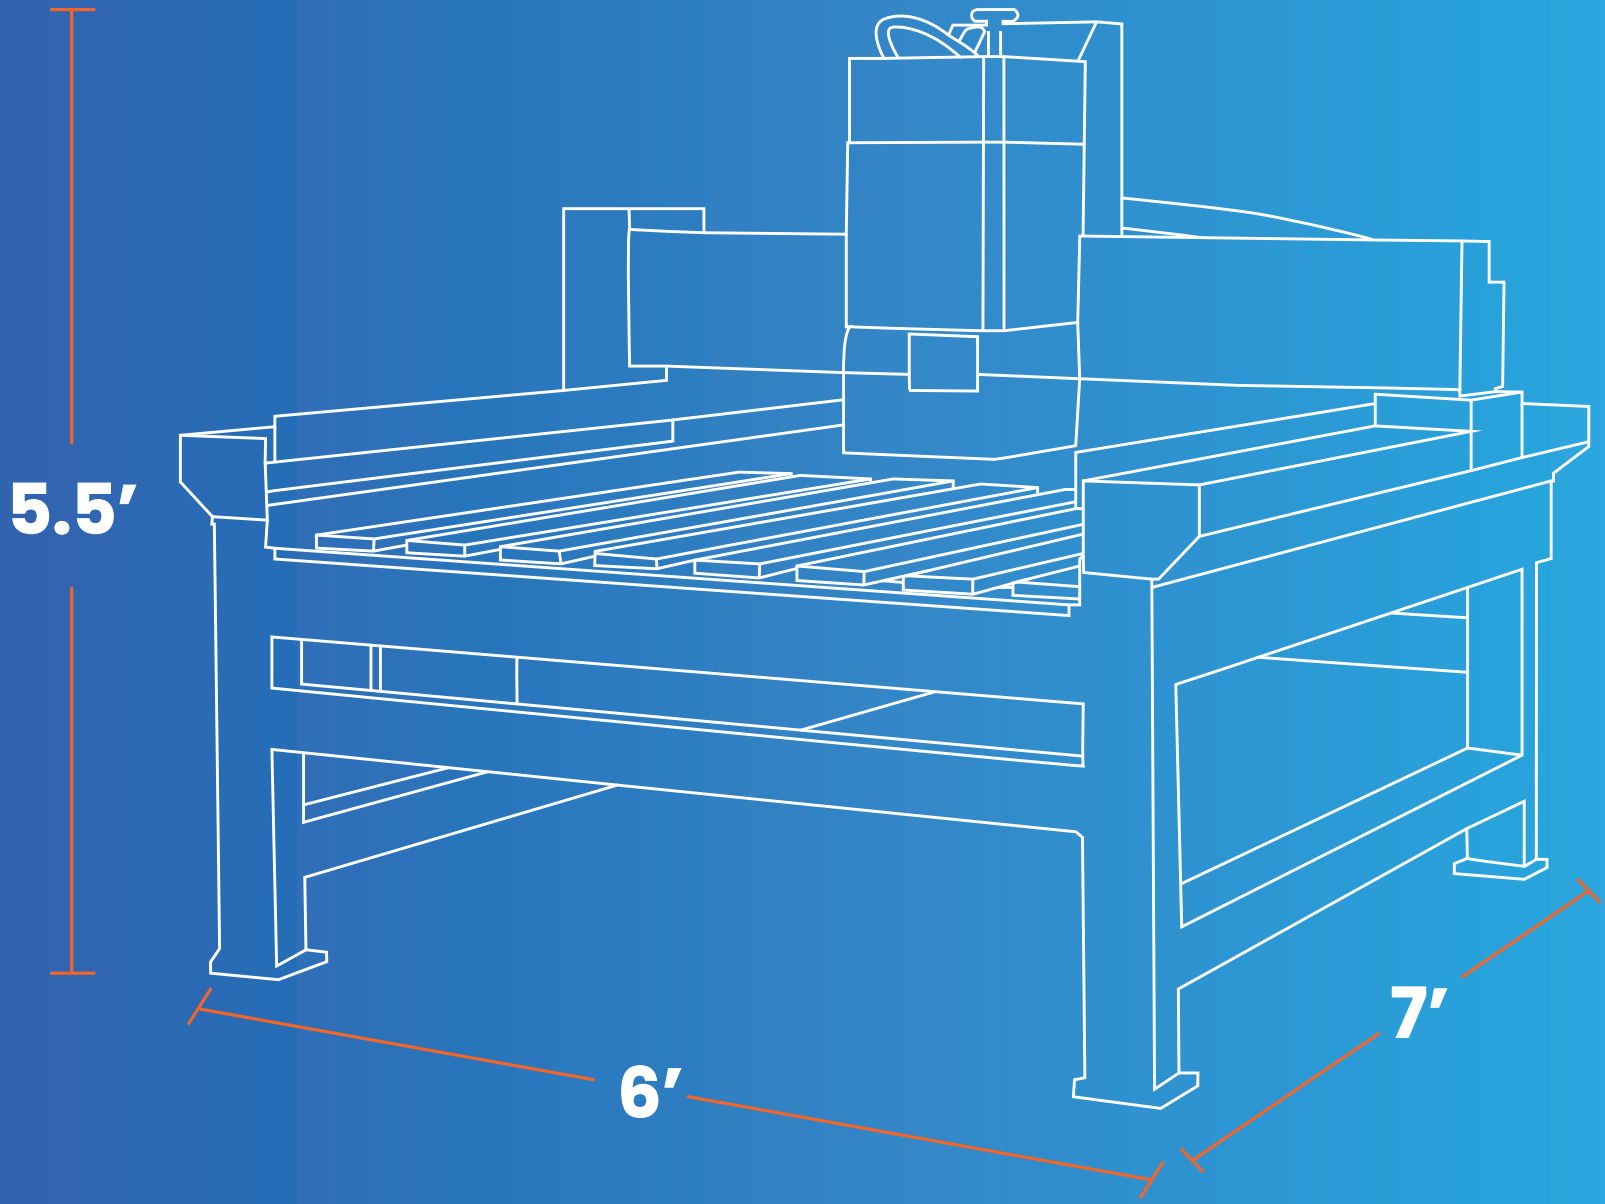

- Versatility in materials: Ideal for working with marble, granite, and natural stone in general, allowing you to transform leftover pieces into useful and/or decorative products.
- Intuitive software: Simple interface that makes programming and operation easy, even for users with no prior computer experience.
- 100% Italian manufacturing, ensuring quality and precision.
- Water recycling system: Includes controlled drainage for efficient resource use and reduced waste.
- Automatic lubrication: Internal system that keeps all axes operating at peak performance, ensuring lifetime durability and reliability.
- Heavy-duty structure: Built with hot-dip galvanized steel to prevent corrosion and guarantee a long service life.
- **3-year warranty.**

We offer FREE lifetime video-call support via WhatsApp, ensuring your production never stops.

Model	Atropo
Weight	2,100 lbs
Electrical supply	220 V / 9.6 A three-phase)
Electro spindle	3 HP
Air consumption	88 PSI / 1 CFM

Ideal for projects that require drilling, engraving, high reliefs, low reliefs, and artistic pieces in the funerary industry.
