OPTIMA CNC SAW

This is the largest and heaviest 5-axis Italian CNC on the market. It offers an accuracy of 0.001 mm, meeting the most demanding requirements of modern workshops.

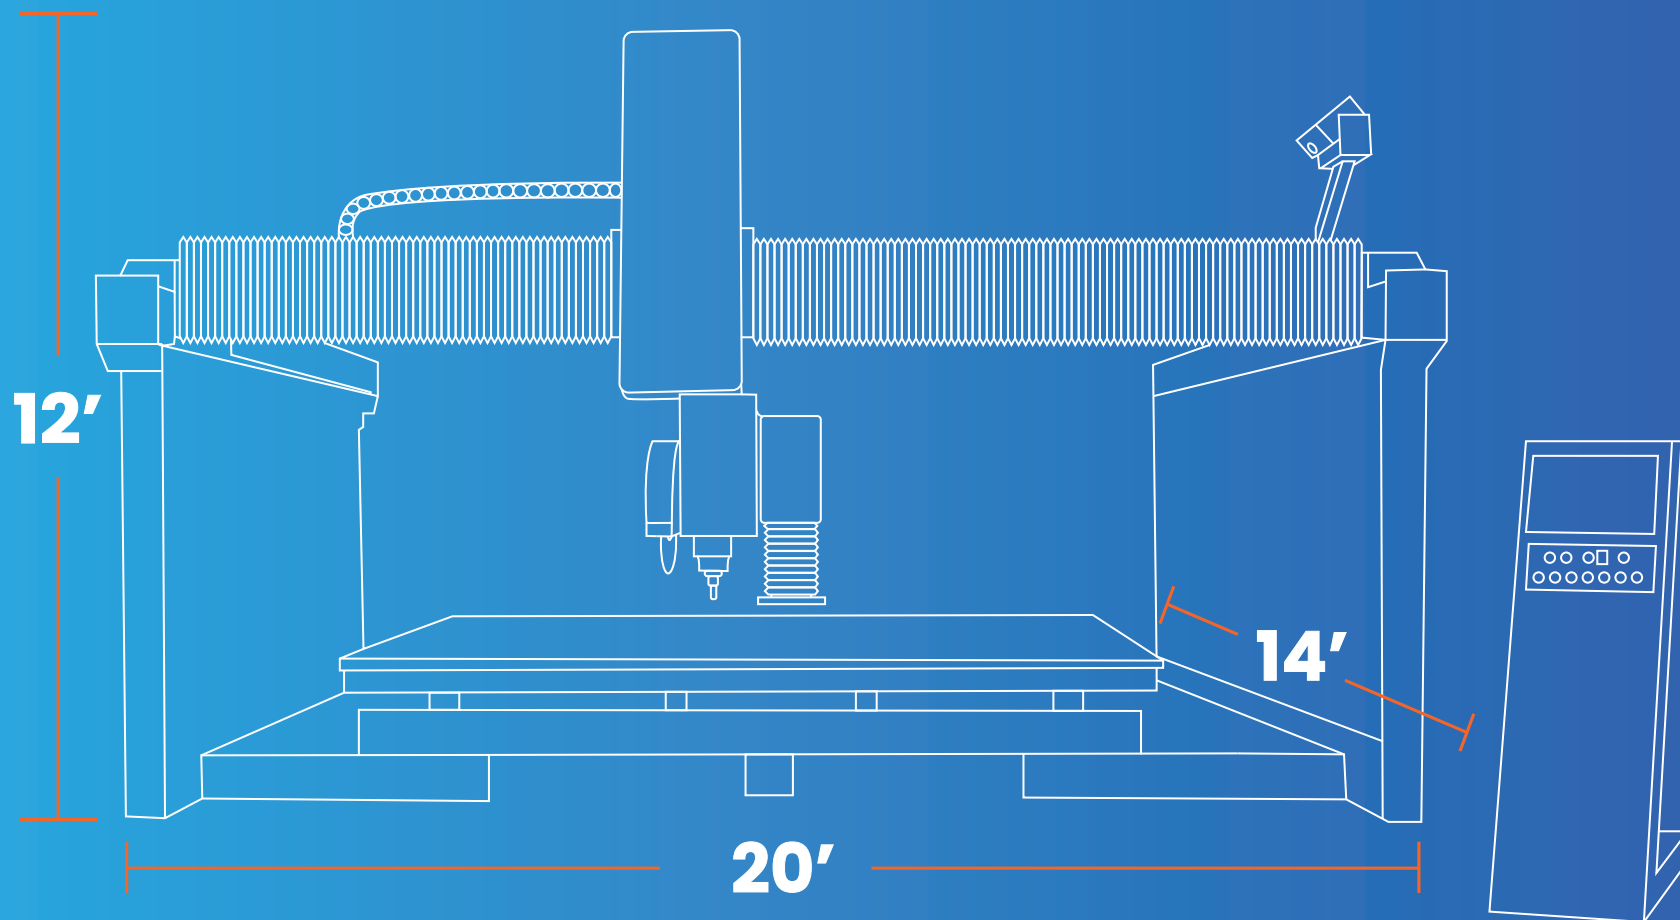

You may operate it in semi-automatic mode or fully CNC mode, using either digital or physical templating.

It features the most simplified software on the market and is fully available in Spanish.

GENERAL FEATURES

- 5 interpolated axes, allowing cuts in multiple directions and angles.
- OPTIMA includes 100% Italian factory seals and UL certification on all electrical components for legal operation in the USA.
- EasySTONE software included, enabling estimates and up to five vein-matching layouts directly on the slab.
- EasySTONE's intuitive and user-friendly interface simplifies programming and operation, even for users with no prior computer experience.
- 100% Italian manufacturing, ensuring quality and precision.
- Lateral Electro-Spindle (E-Tool): additional tool for tight radiuses and sink cut-outs.
- 360° rotary head with 0°–90° tilt, enabling complex and inclined cuts.
- Vacuum cups located on the head, facilitating separation of the cut material from the table. The machine optimizes slab handling thanks to a combined water-and-air cleaning system before suction.
- Integrated digital templating unit: cross laser with point-drawing function for digitizing any physical template.
- Automatic lubrication of all axes every 4 working hours, guaranteeing lifetime performance.
- Hot-dip galvanized structure, preventing corrosion for more than 20 years.
- 3-year warranty.

We provide FREE lifetime video-call support via WhatsApp, ensuring your production never stops.

Model	Optima
Weight	11,100 lbs
Electrical Supply	220 V / 80 A (three-phase)
Main Motor	30 HP
Blade diameter	14" a 22"
External water consumption	6 - 9 gallons per minute
Internal water consumption	1.6 gallons per minute
Air consumptio	87 PSI

suction cups, maximum load
2,000 lbs

3 HP lateral electro spindle
